\$10 REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

Entered at the Postoffice in Tonopah as second class matter.

RESPECT THE DEAD.

"Why don't some one fix that fence," remarked a stranger yesterday while driving along the road by the cemetery—the place that holds all that is mortal of many Tonopah people. The remark brings to mind forcibly the fact that the cemetery fence is in a very deplorable condition and should be repaired or a new one built at once. The last resting place of our friends should not be allowed to become browsing ground for stray stock which may be at large in the vicinity of the burying ground.

"A good weeding out of the Democratic party in Nevada is about due. Men who are Democrats for office only have no place in the party and should be relegated to private life."—Reno Journal.

What a fall there will be among my countrymen. Should this process go through it is needless to say that there will be nothing but Republicans left in the state. It looks as if the Democrats are a thing of the past in Nevada.

ROYAL TIGER AT RAWHIDE HAS HIGH GRADE ORE

RAWHIDE, April 30.—The Royal Mines company, owning the Wonder Kings group and operating the Royal lease on the Royal-Tiger property, situated about three miles west of Rawhide, is opening a rich shoot of ore in the north drift on the 450-foot level in the Royal lease. The vein has a uniform width of four feet, and an eighteen-inch streak on the footwall averages about \$80 a ton, while the rest of the vein assays from \$17 to \$30. In the early days of the camp the Royal lease shipped two carloads of ore that netted \$240 a ton, and the total production to date amounts to nearly \$30,000. The shaft on this property is the deepest in the district, being down about twelve feet below the 450-foot level. Some good milling ore has been developed on the upper levels; the vein varying from two to four feet in width and assays running from \$12 to \$40.

The Black Eagle and Steinheimer properties, lying to the southwest of the Royal-Tiger, are being developed on company account, and some of the biggest bodies of milling ore in the district are being blocked out in both properties.

SHIPPING FROM GOLDEN.

Returns were received yesterday by Robinson brothers on 12,336 pounds of ore sent from Golden to the Western Ore Purchasing company at Millers. The ore gave gross values of \$45.60 gold and \$60.73 silver, a total of \$106.33 per ton.

REVIEW OF STEVENS COPPER HANDBOOK

VOLUME EIGHT OF THE LATEST EDITION RECEIVED AT THIS OFFICE.

The eighth annual edition of the Copper Handbook, just issued by the author, Mr. Horace J. Stevens, of Houghton, Michigan, is at hand. It is an octavo volume of 1500 pages, in breviter type, but by slight increases in the width and height of the printed matter on each page, together with a reduction in the leading, but without using a smaller face of type, each page carries one-third more matter than formerly, and the new edition, with only 1500 pages, contains one-half more matter than the preceding edition, which had 1228 pages.

The principal chapter of the book, devoted to the detailed descriptions of the copper mines of the globe, has 1185 pages, describing no less than 6767 copper mines and copper companies, in all parts of the world, comparing with 4627 listed in the preceding edition. This long chapter, which was unrevised in volume 7, owing to fire, accident and illness, has been completely rewritten, even the obituaries of the defunct companies having been improved by the addition of neat verbal tombstones.

Copper is considered under a great variety of heads, in the preliminary chapters of the book, these giving, in non-technical but correct language, a vast amount of information relating to the geology and mineralogy of copper and copper ores, with chapters devoted to mining, milling, smelting, leaching and refining, and yet other chapters treating of the history of the metal, brands, grades, substitutes and uses. The very complete glossary of mining terms is reprinted from volume 2. The final chapter, devoted to statistics, is the most complete and compendious given in any work dealing with the subject, whether issued officially or privately, and its authority has been recognized officially and by the copper trade.

It is rarely that a single work is found of such general importance to such a great diversity of interests as is the Copper Handbook, which is practically an encyclopedia of the entire subject of copper, and, as such, is of equal interest to miner, metallurgist, refiner, producer and consumer. To the investor or speculator in copper shares, it is as nearly indispensable as a work of reference can become. As usual, the Copper Handbook is exceedingly frank in its comments, and the descriptions of mining companies considered by the author to be dishonest, are marked by the utmost limit of plain-speaking. That seven preceding editions, embodying language of the same tartness, have appeared without a single libel suit being brought into court, though many companies are branded as swindlers, is evidence that Mr. Stevens, notwithstanding the fact that he denounces several hundred companies as frauds, is sure of his ground in making such scathing arraignments as are contained in this and the past editions of his book.

The price of the Copper Handbook is \$5.00, in a strong green buckram binding, and the selling plan is unique, as the book is sent to anyone ordering it, from any part of the globe, without a penny in advance, the publisher prepaying carriage charges and allowing the purchaser a week's inspection, and accepting the return of the book in settlement of the charge if, upon inspection, it does not prove satisfactory. That this plan is successful is proven by the fact that it has been followed for six consecutive years, and that the Copper Handbook now circulates in every country that has a postage stamp of its own, and is claimed, by the publisher, without recorded contradiction, to enjoy the largest circulation of any mining annual printed in any language. Any one interested in copper, or copper shares, can well afford to write Mr. Stevens, ordering a copy of the Copper Handbook without advance payment, and subject to approval after a week's inspection.

AS IT HAPPENED.

(Stolen)

Maud Muller, on a summer's day. Put up a bluff at raking hay. But on the high road kept an eye in case a judge came riding by.

And, sure enough, a judge did pass. At forty miles an hour, alas! It gives to romance quite a jar. The modern honk-honk touring car.

FOUR DIMPLED DARLING Who Appear in "My Wife's Family" at The Butler.

"My Wife's Family" was there in force at the Butler theater last evening and the entire audience state that the play was the best that has yet been produced by the Allen Curtis Musical Comedy company. As before, the house was packed and liberal applause was bestowed on every feature of the program. The play will be reproduced tonight and Sunday night and on Monday the company will put on "The Jolly Widow." The "Widow" made a strong hit in Reno and if she could stir that burg, there is no doubt but what she will take Tonopah by storm.

FACES JURY ON CHARGE

OF SELLING "FAKE" STOCK

SAN FRANCISCO (Cal.) April 29.—M. B. Leavens was placed on trial before a jury in Judge Murasky's court yesterday on a charge of obtaining \$1442.75 by means of false pretenses from H. H. Norwood, a San Francisco stock dealer. Leavens is alleged by the prosecution to have entered into a criminal arrangement with H. D. Chaney, a clerk of the Sandstorm Mining company, of Goldfield, Nevada, to issue fictitious stock and sell it. Leavens and Chaney to share the proceeds. Leavens, it is charged, indorsed the name "J. C. Culver" on the back of the five certificates, and by falsely pretending that he (Leavens) was the owner of the stock sold it to Norwood for \$1442.75. Assistant District Attorney Ferrari is prosecuting, aided by Charles Fairall. Attorney William Barnes and D. S. Truman are for the defense. The jury was secured yesterday and the rest of the day was consumed in argument as to whether or not the testimony of Chaney could be introduced as taken in the police court.
